

ASM Ltd – Carbon Reduction Plan

Commitment to achieving Net Zero

ASM Ltd is committed to halving emissions before 2030, achieving Net Zero by 2050 and disclosing emissions annually.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2024	
Additional Details relating to the Baseline Emissions calculations.	
<i>First reported emissions will be due in August 2025, due to no prior measurements</i>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	No prior Scope 1 measurements
Scope 2	No prior Scope 2 measurements
Scope 3 (Included Sources)	No prior Scope 3 measurements
Total Emissions	No prior measurements

Current Emissions Reporting

Reporting Year: 2024	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	No prior Scope 1 measurements
Scope 2	No prior Scope 2 measurements
Scope 3 (Included Sources)	No prior Scope 3 measurements
Total Emissions	No prior measurements

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2025 baseline. The carbon emission reduction achieved by these schemes equate to **Unknown** tCO₂e, a **Unknown** %ge reduction against the 2025 baseline and the measures will be in effect when performing the contract

In the future we hope to implement further measures such as:

- *Achieve the environmental standards ISO 14001 and ISO 50001*
- *Have a switch off lighting policy*
- *Adoption of LED/PIR lighting controls*
- *Maintain a recycle policy in local offices*
- *Look to recycle any general building materials on site*
- *Use electricity from renewable sources*
- *Drive less, or switch to electric vehicles*
- *Make our supply chain greener*

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting .

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard .

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Bidder:

Adam Letouze
